Quantitative Concept Screen Research Report

A demonstration of Innovatr's rapid concept testing solution

September 2025

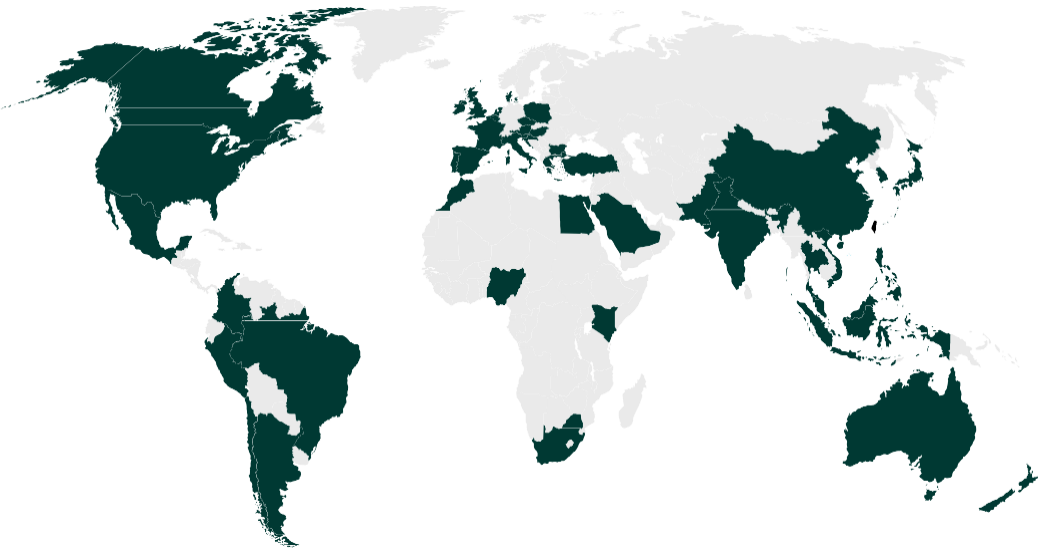
Make Big Ideas Happen

www.innovatr.co.za

innovatr

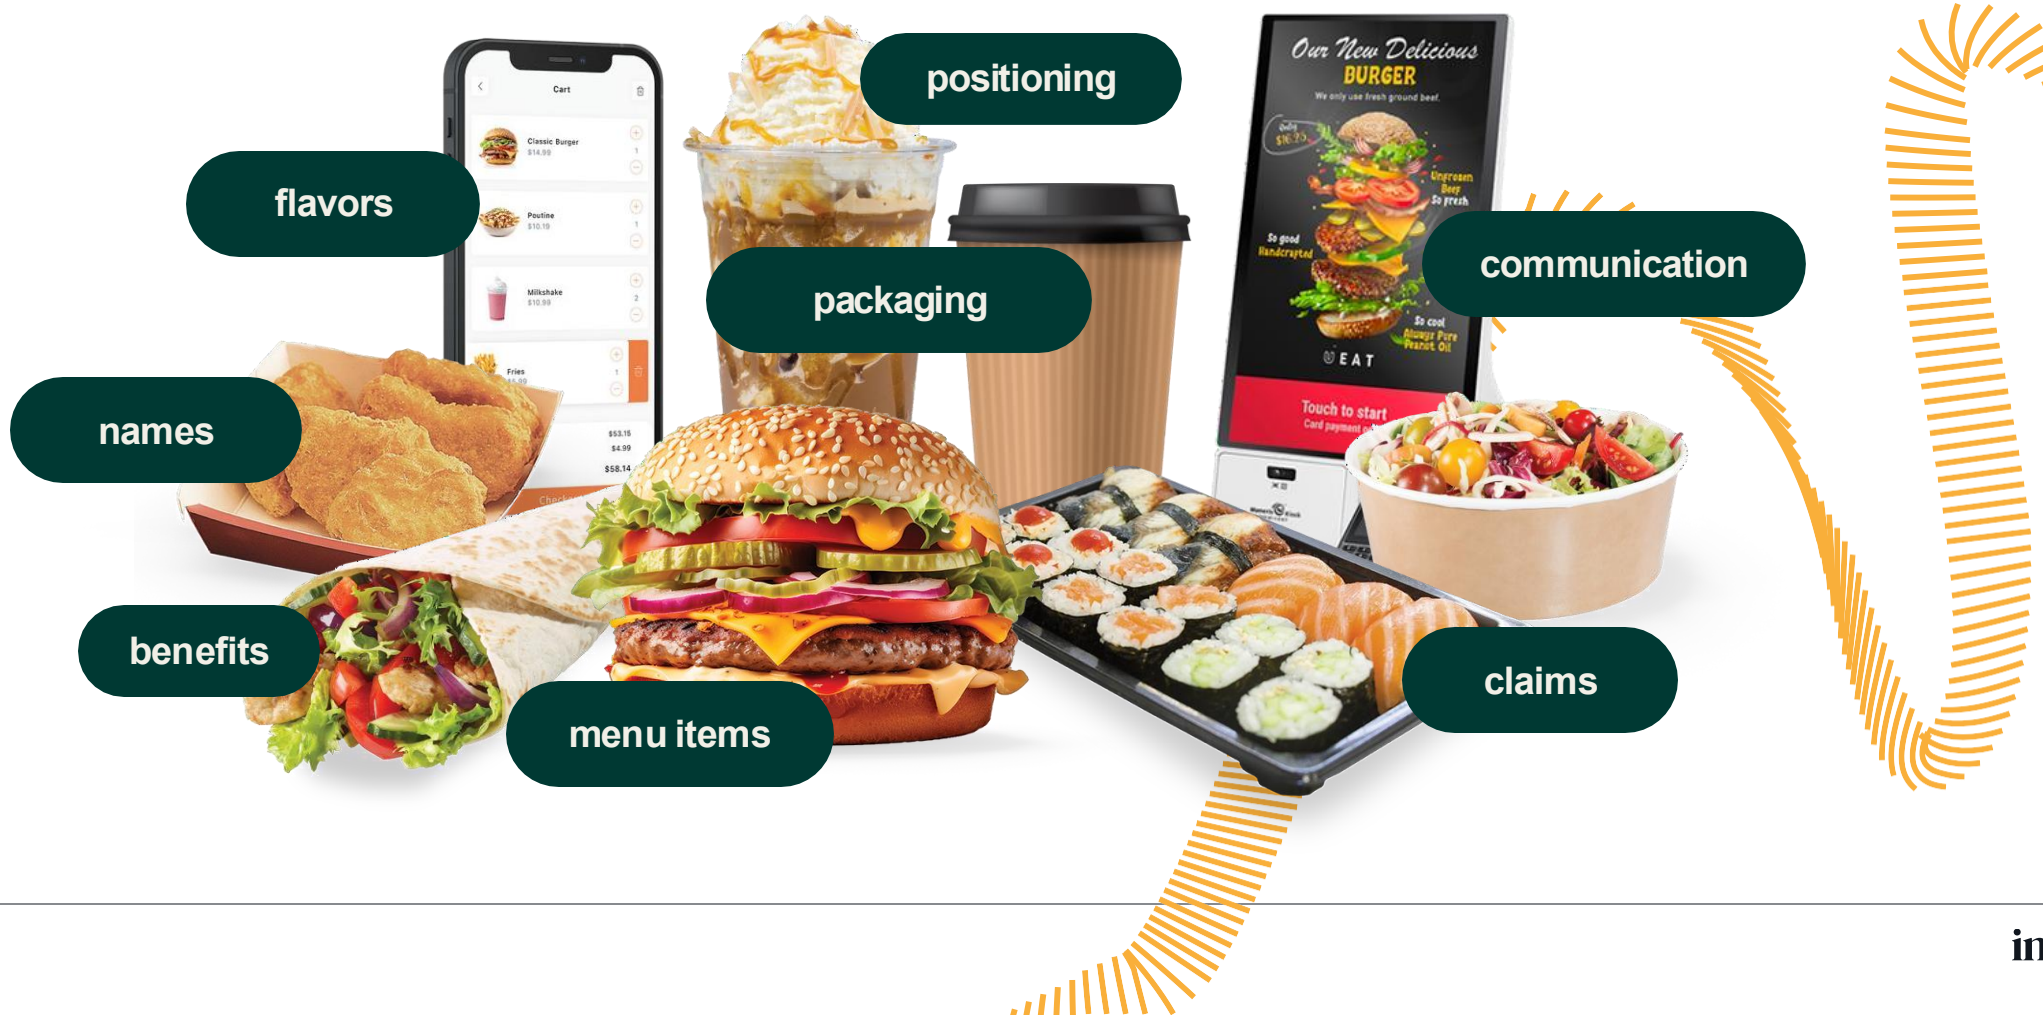
Research Methodology.

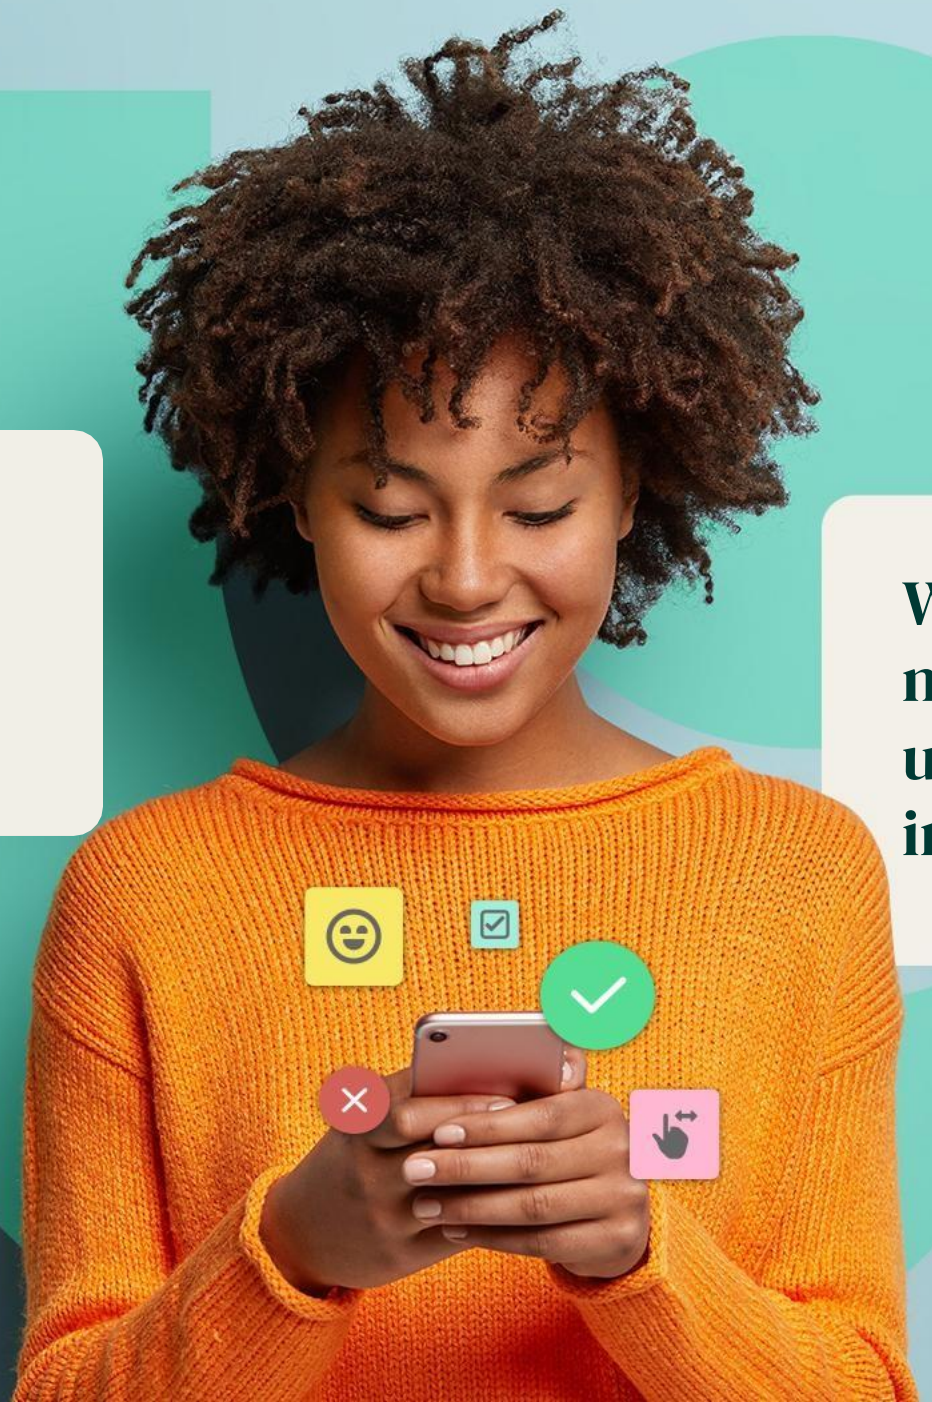
A trusted global partner for leading brands



(Countries researched in the past 12 months)

Growth is any change that shifts decisions in your favour.
We offer a **research platform** for helping you learn how to grow.





Our testing feels like social media, not a survey.

We help you to reach new people and uncover new insights in only 24hrs.

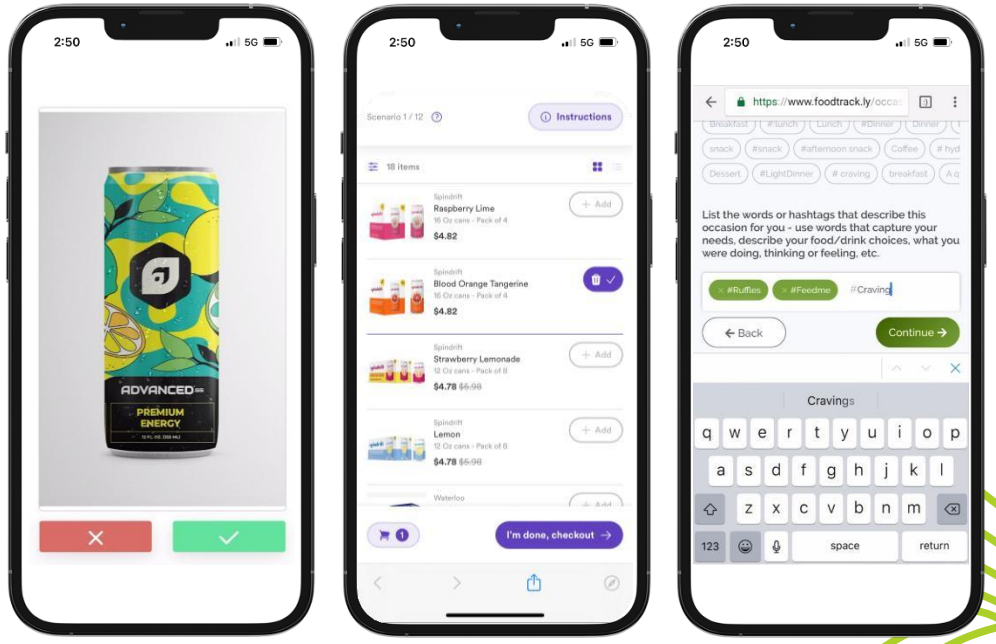
We are transforming the way insights are uncovered and delivered

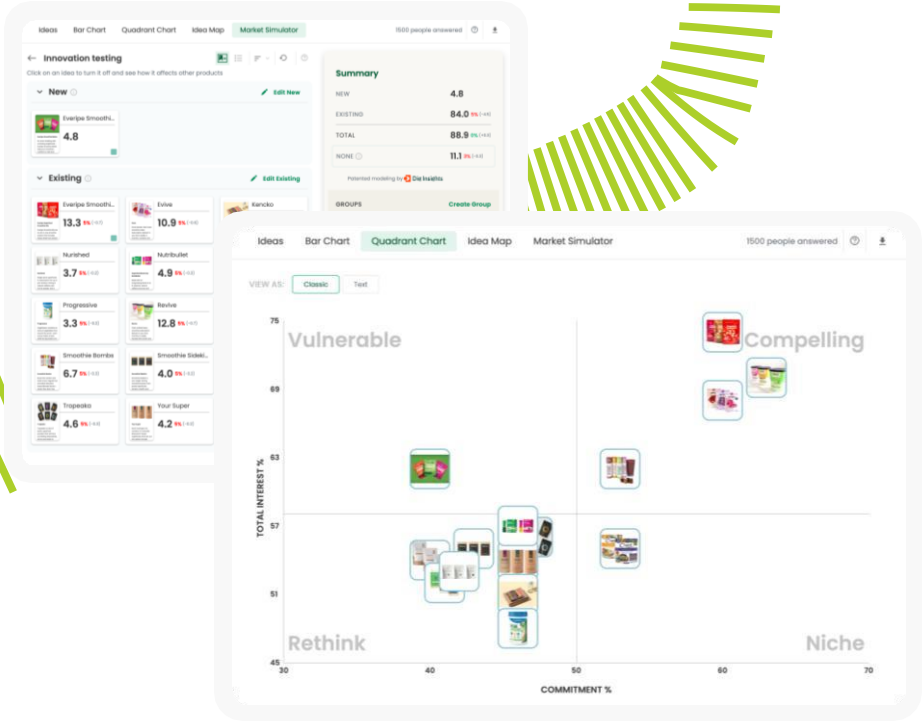
Technology

Proprietary technologies allow us to understand and predict consumer decisions

Advanced analytics and data visualization

Advanced analytics and intuitive data visualizations reveal patterns and highlight opportunities





Impulse drives decisions

Normal testing fails to adequately account for the role of impulse in decision making and instead asks a series of rational, evaluative questions.

We ask consumers to indicate if a product is or is not relevant to them using a radically simple interface that is action based, not language based.

Swiping allows participants to provide an intuitive reaction.

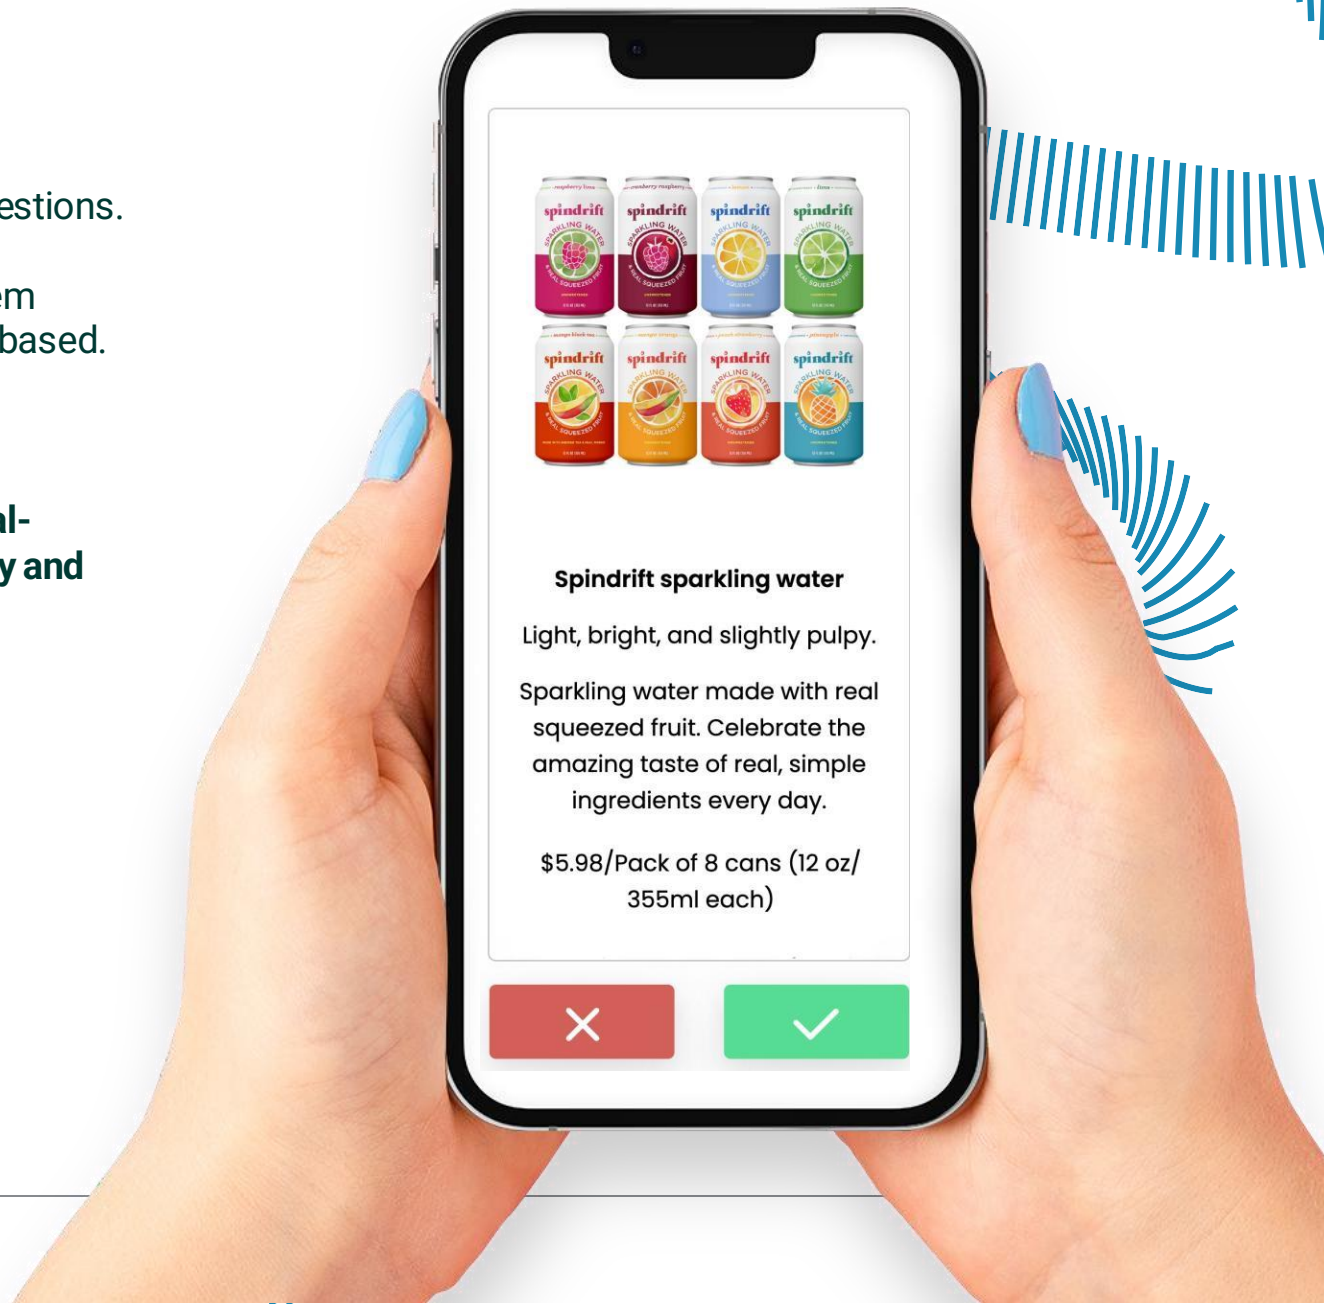
It also allows us to include a large set of items in a test, creating real-world benchmarks and allowing for source of volume, incrementality and cannibalization forecasting.

If the respondent likes the idea

They swipe right or click

If the respondent dislikes the idea

They swipe left or click



Decisions occur in context

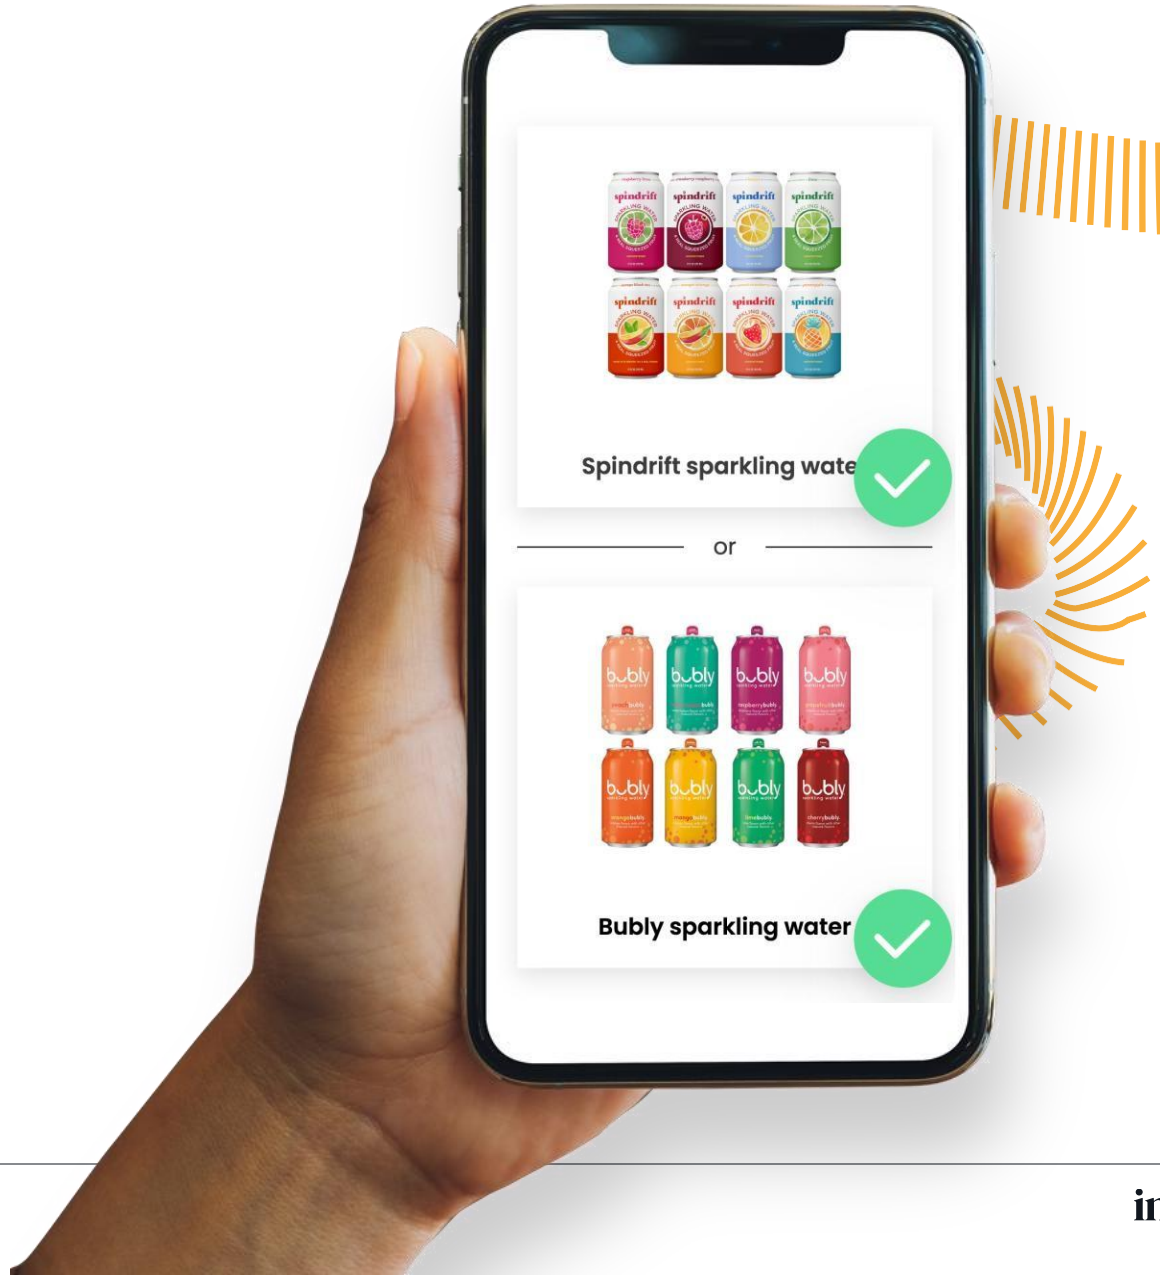
Most consumer decisions involve choosing between appealing options.

Most research fails to reflect this, testing items in isolation from products that compete to address the same needs.

In contrast, we present people with pairs of options that they swiped right on.

They are asked to choose a favorite.

Tradeoff identifies products that have the potential to shift choice in a competitive context and succeed in market.

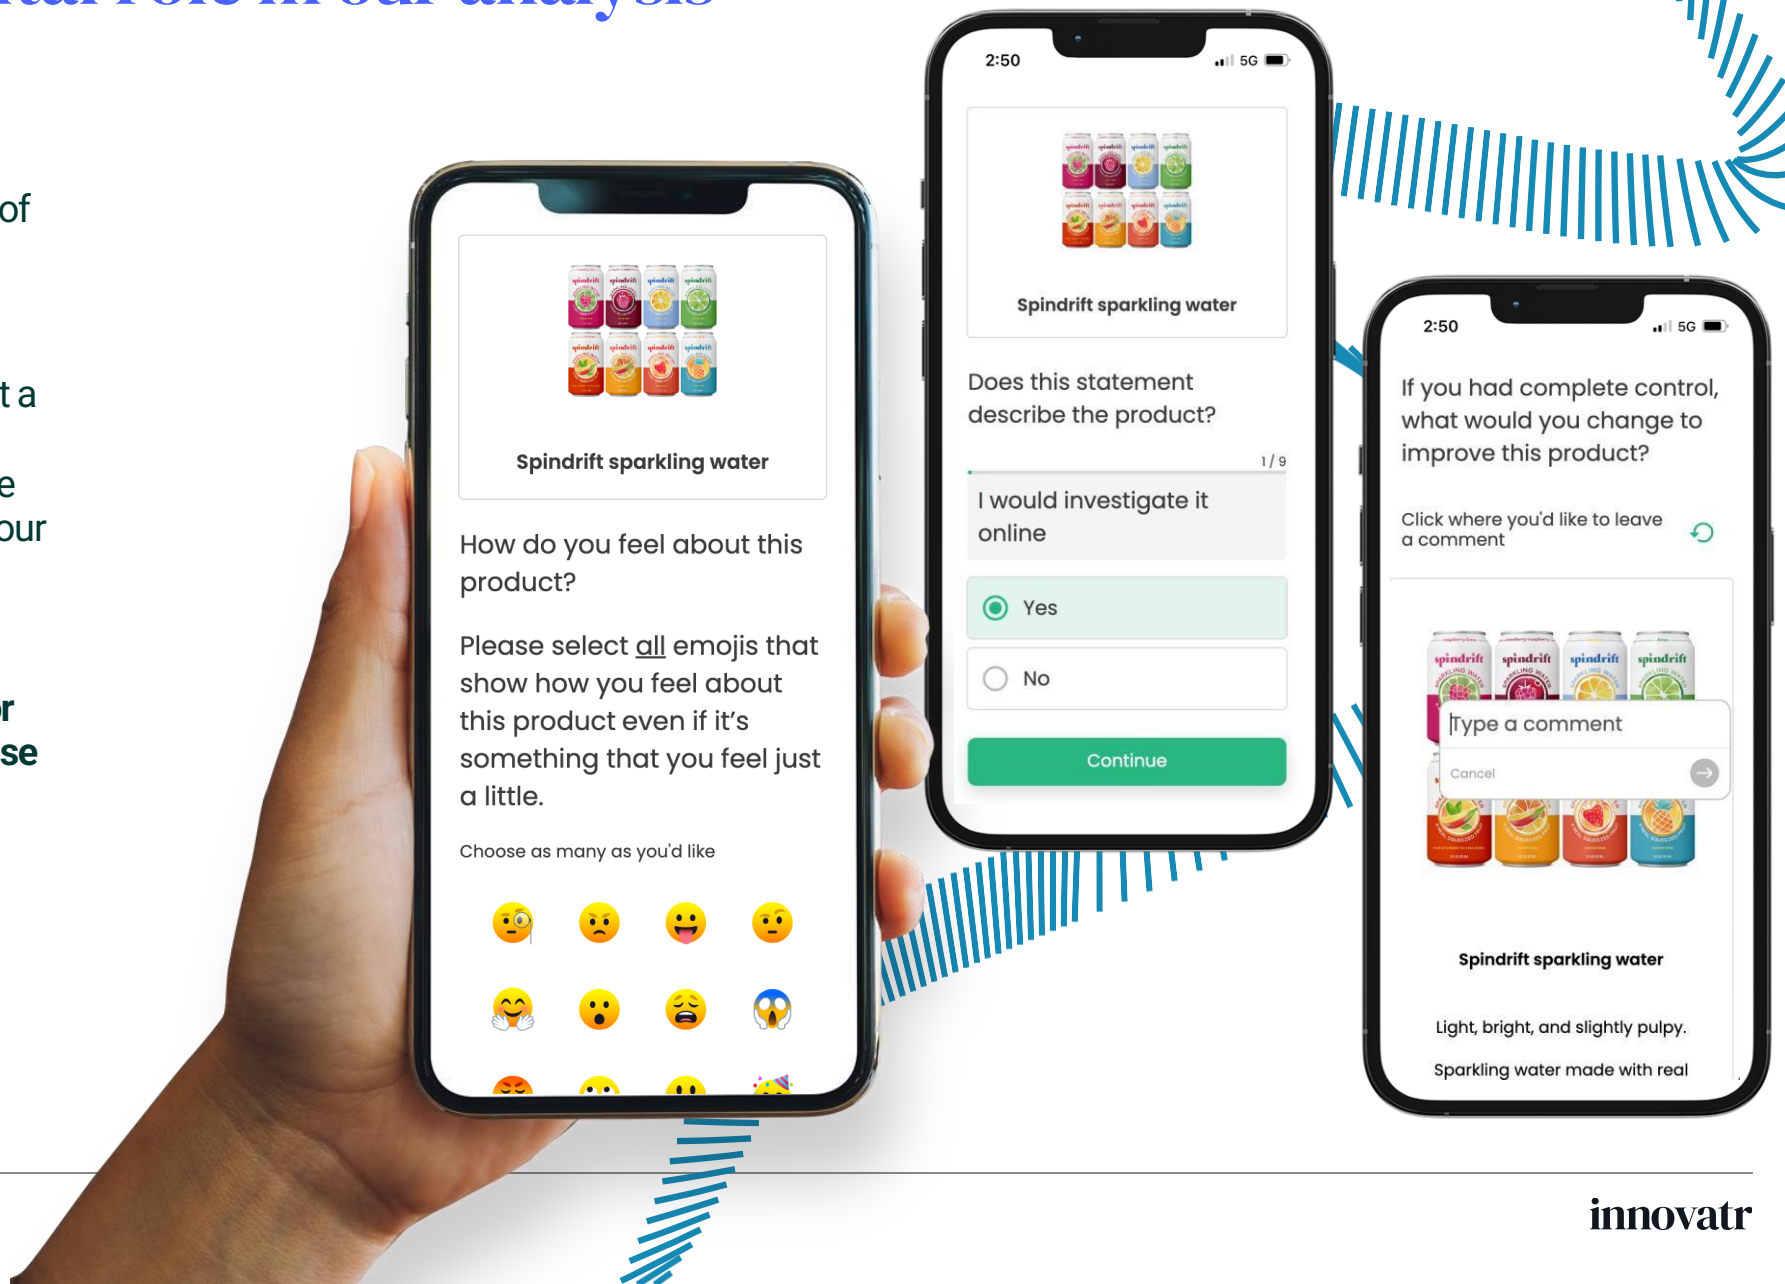


Attitudes play a vital role in our analysis

Innovatr recognizes the importance of understanding attitudes.

In keeping with the idea that testing should feel like social media and not a survey, we have developed unique questions to understand how people react emotionally and rationally to your ideas.

We use attitudes and emotions to identify why an idea performs well or poorly in behavioral measures and use this learning to optimize ideas.



Quantitative Research

Research objectives:

- ✓ **Needs Screen:** Understand **emotional & functional needs** driving purchase intent, commitment & overall in-market potential
- ✓ **Idea Screen: Screen New Chicken Concepts**
- ✓ **Idea deep-dive:** Assess designs by **needs and delivery**
- ✓ **Open-ended Feedback**: Understand **optimisation opportunities** for concepts

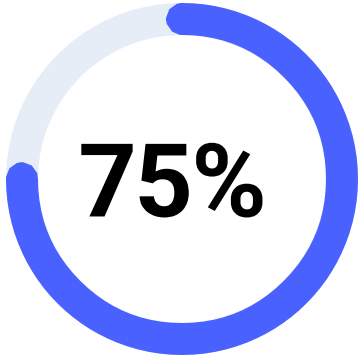
- 35-44 years: (35%)

Screening Criteria

- Age
- Gender
- Ethnicity
- Employment Type
- Household Income
- Shopping Habits
- Chicken Preferences

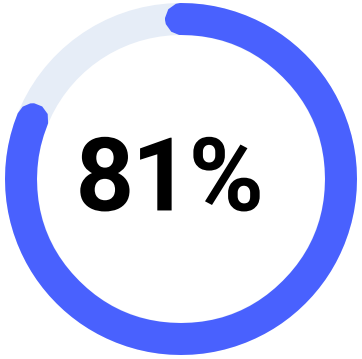
Benchmarks: Idea Score, Interest and Commitment

IDEA



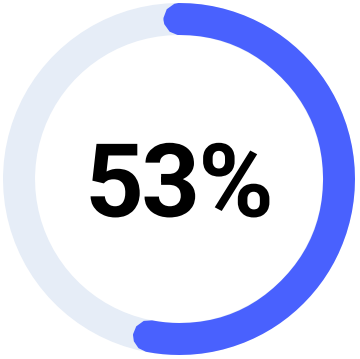
Idea Score: A combination of the Interest and Commitment scores. Idea Score predicts in-market performance.

INTEREST



Interest Score: The percentage of right swipes or 'likes' that an idea receives. Interest Score correlates highly with purchase intent.

COMMITMENT



Commitment Score: When a respondent likes two ideas, they are asked to choose between them, committing to a favorite. Commitment Score is the percentage of "wins" an idea has in head-to-head comparisons.

Demand Space Category Needs

"We are interested in learning all the things you want when shopping for **Chicken.**"

Taste	Taste delicious
Value	Offers great quality at a fair price
Farmers	Supports local farmers
Expertise	Farmed by experts
Family-Centric Meal Planning	Works for practical meals the whole family enjoys
Variety	Wide variety of interesting types of Chicken (Mala, Heads & feet, Bones etc)
Flavour	Full of flavour
Trust	Is a Meat that I can trust, clean meat
Love for Cooking	Inspires creativity in the kitchen and makes me enjoy cooking more
Longevity	Meal Preservation & Longevity
Nourishing	Nourishing and fills me up
Immunity	Chicken contains Vitamin B, which is important for a healthy immune system.
Kid-Friendly Convenience	Easy to cook and perfect for feeding kids without stress
Bulk-buying	Comes in bigger packs that offer good value
Treat	Feels like a treat
Protein	Great source of protein
Taste	Superior taste
Heritage	Trusted and well-respected heritage

Executive Summary & Recommendations

Key Consumer Needs Insights

- Quality perception is strongest in Family Value Pack (86%) and Protein Plus Pack (82%)
- High-performing concepts strongly deliver on protein (96%), value (94%), and trust (92%)
- Emotion-driven designs (Family Value Pack, Easy-Cook Portions) show strongest emotional connections
- Clarity is exceptional in Family Value Pack and Protein Plus Pack (both 95%)

New Premium Concepts

Concept	Idea	Interest	Commitment	Status
Family Value Pack	**86%**	92%	60%	All Benchmarks
Protein Plus Pack	**82%**	91%	53%	All Benchmarks
Easy-Cook Portions	**80%**	87%	50%	All Benchmarks

Additional Concepts

Concept	Idea	Interest	Commitment	Status
Tender & Juicy	**76%**	86%	39%	Below Commitment
Trusted Choice Classic	**74%**	85%	34%	Below Commitment

TOP TIER (Proceed Immediately):

These concepts exceed all benchmarks and show strong needs delivery:

- **Family Value Pack** (strongest balanced performer)
- **Protein Plus Pack** (strong idea score, exceeds commitment)
- **Easy-Cook Portions** (meets all benchmarks)

SECOND TIER (Consider with modifications):

These concepts meet idea/interest benchmarks but have areas for optimisation:

- **Tender & Juicy** (boost commitment, leverage quality perception)
- **Trusted Choice Classic** (enhance commitment, leverage trust positioning)

REQUIRES REWORK:

Consider a complete redesign of classic positioning to align with contemporary consumer preferences. Key feedback suggests traditional packaging lacks modernity and emotional appeal.

1. Needs Screen Results

We are interested in learning all the things you want when choosing **Chicken**

If the criteria you see is **very important to you** swipe right or click the '✓'.

If the criteria you see is **NOT very important** swipe left or click the 'X'.

After you select two criteria as being important, you will be asked to tell us which one is the MOST important.

Needs Screen Summary:

Needs focusing on "Quality" and "Family Appeal" show the highest potential

Top-Line Insights

- Top 5 Needs all have scores >90, significantly above benchmark (>85)
- All Needs exceed Interest Score benchmark (>90%)
- Only 3 Needs meet Commitment Score benchmark (>50%)
- Quality-focused needs show highest overall performance

Benchmark Thresholds

75%	81%	53%
Idea Score	Interest Score	Commitment Score

Average Performance

88%	97%	55%
Average Idea Score	Avg Total Interest	Avg Commitment

Key Insights & Recommendations

Interest-Commitment Gap

Address the significant gap between Interest and Commitment scores. Only 3 out of 7 Needs meet the Commitment benchmark despite high Interest scores.

Market Positioning

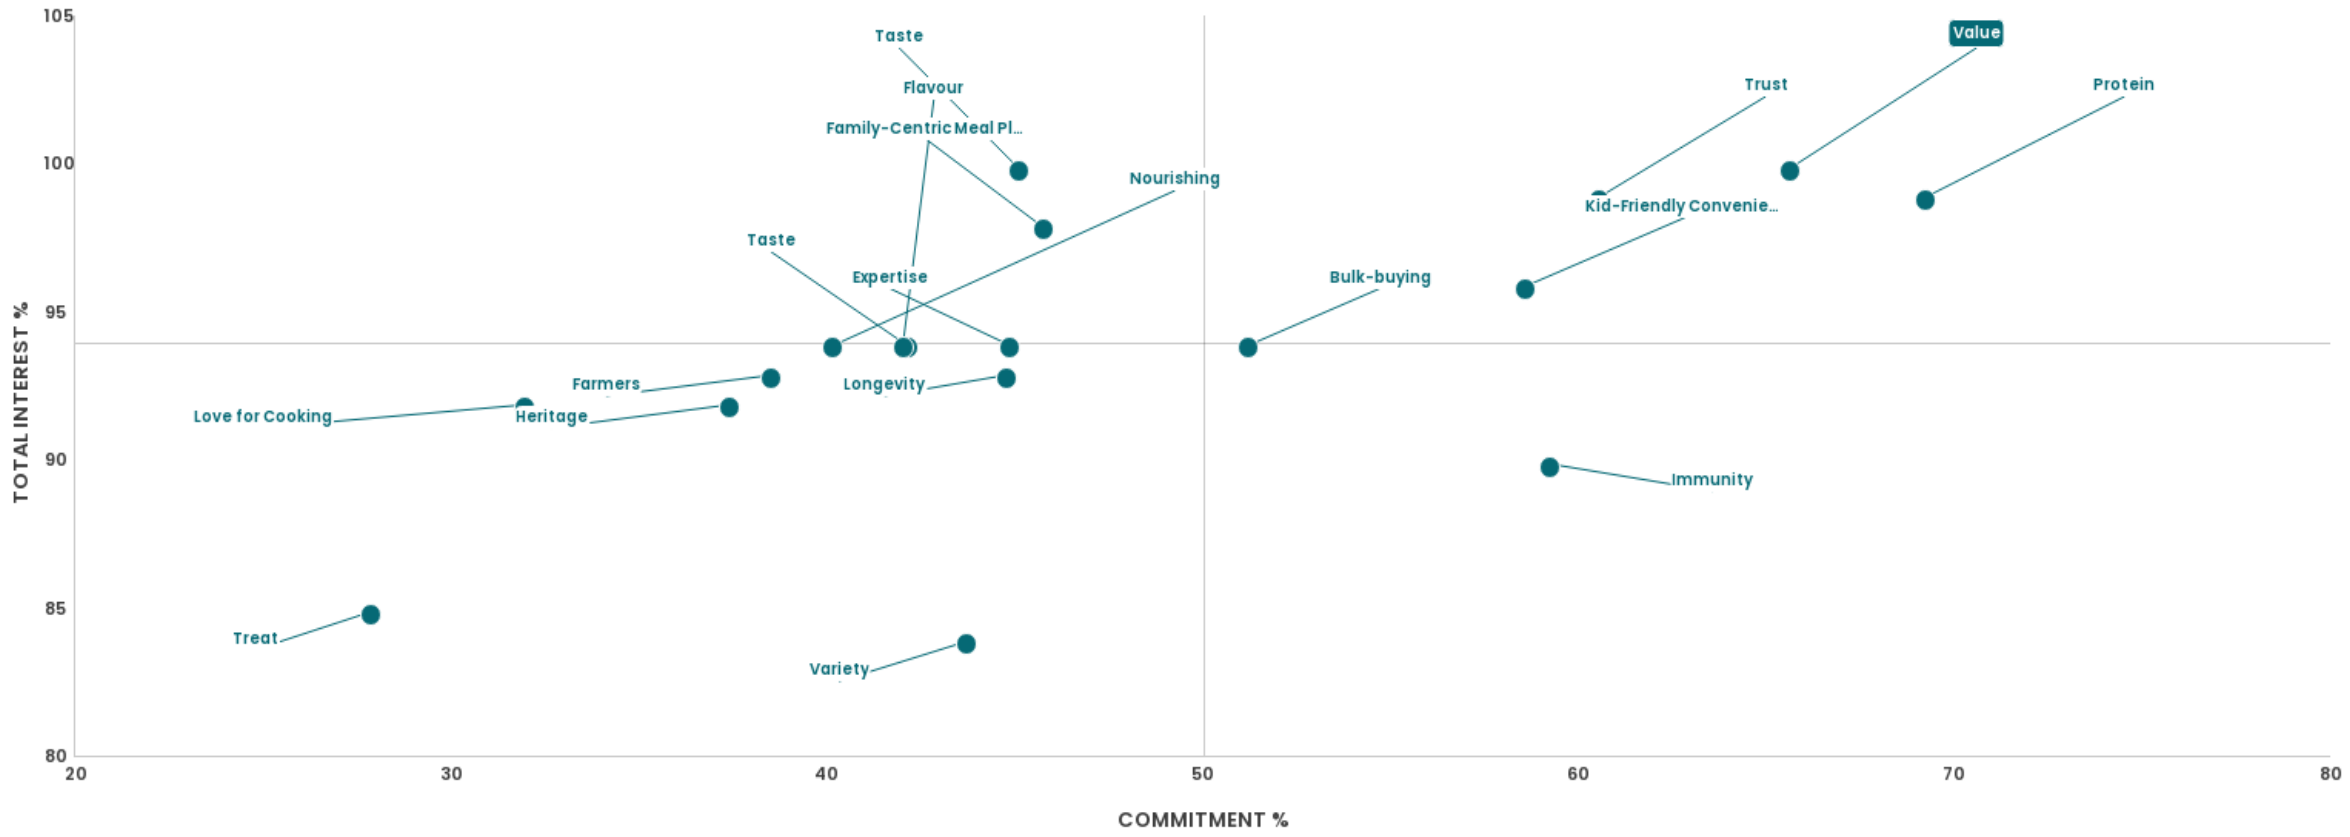
Consider bundling high-quality attributes (Protein, Value, Trust) with family appeal to enhance overall market commitment levels.

Top Performers

Idea	Idea	Interest	Commitment
Protein	93%	99%	70%
Value	93%	100%	66%
Trust	91%	99%	61%
Kid-Friendly Convenience	89%	96%	59%
Taste	89%	100%	45%
Family-Centric Meal Planning	88%	98%	46%
Bulk-buying	86%	94%	52%
Expertise	84%	94%	45%
Flavour	84%	94%	42%
Immunity	84%	90%	60%

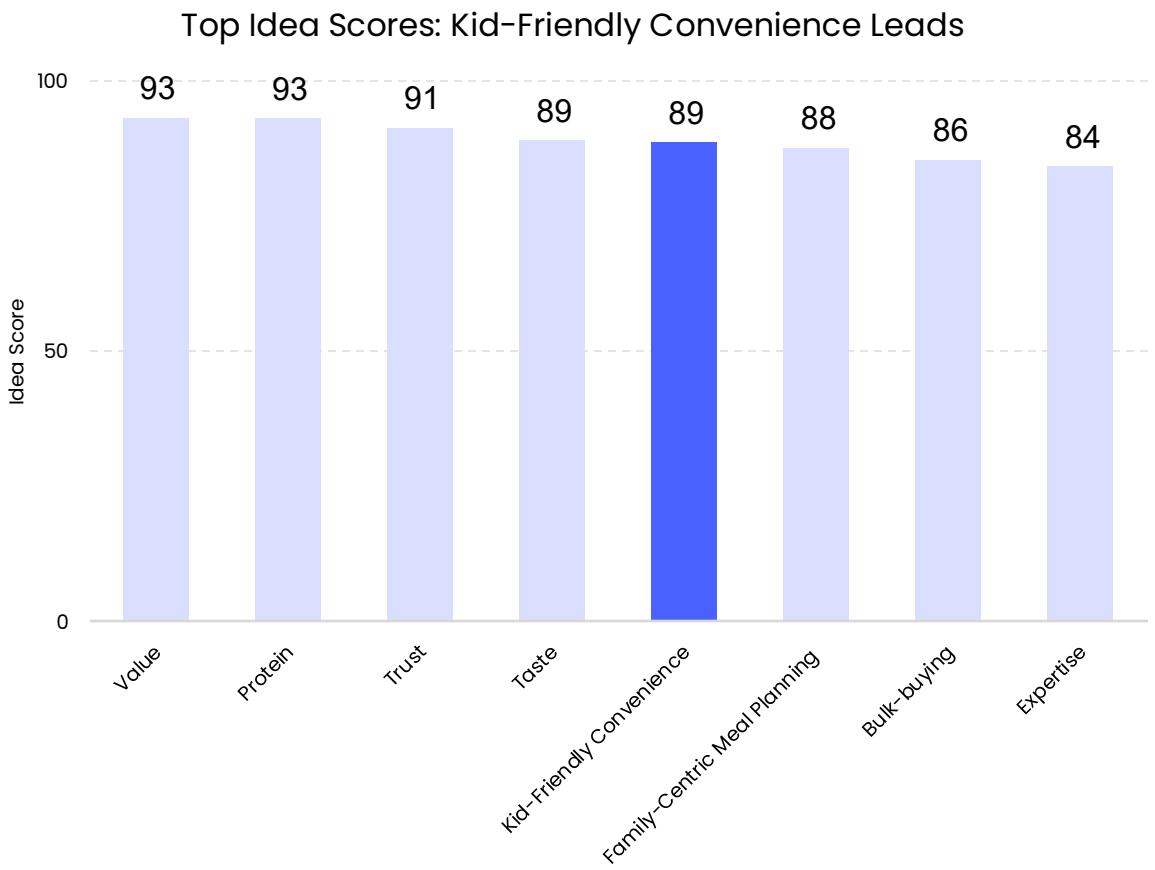
Value Dominates

With perfect Interest and robust Commitment, Value is the undisputed message to advance.



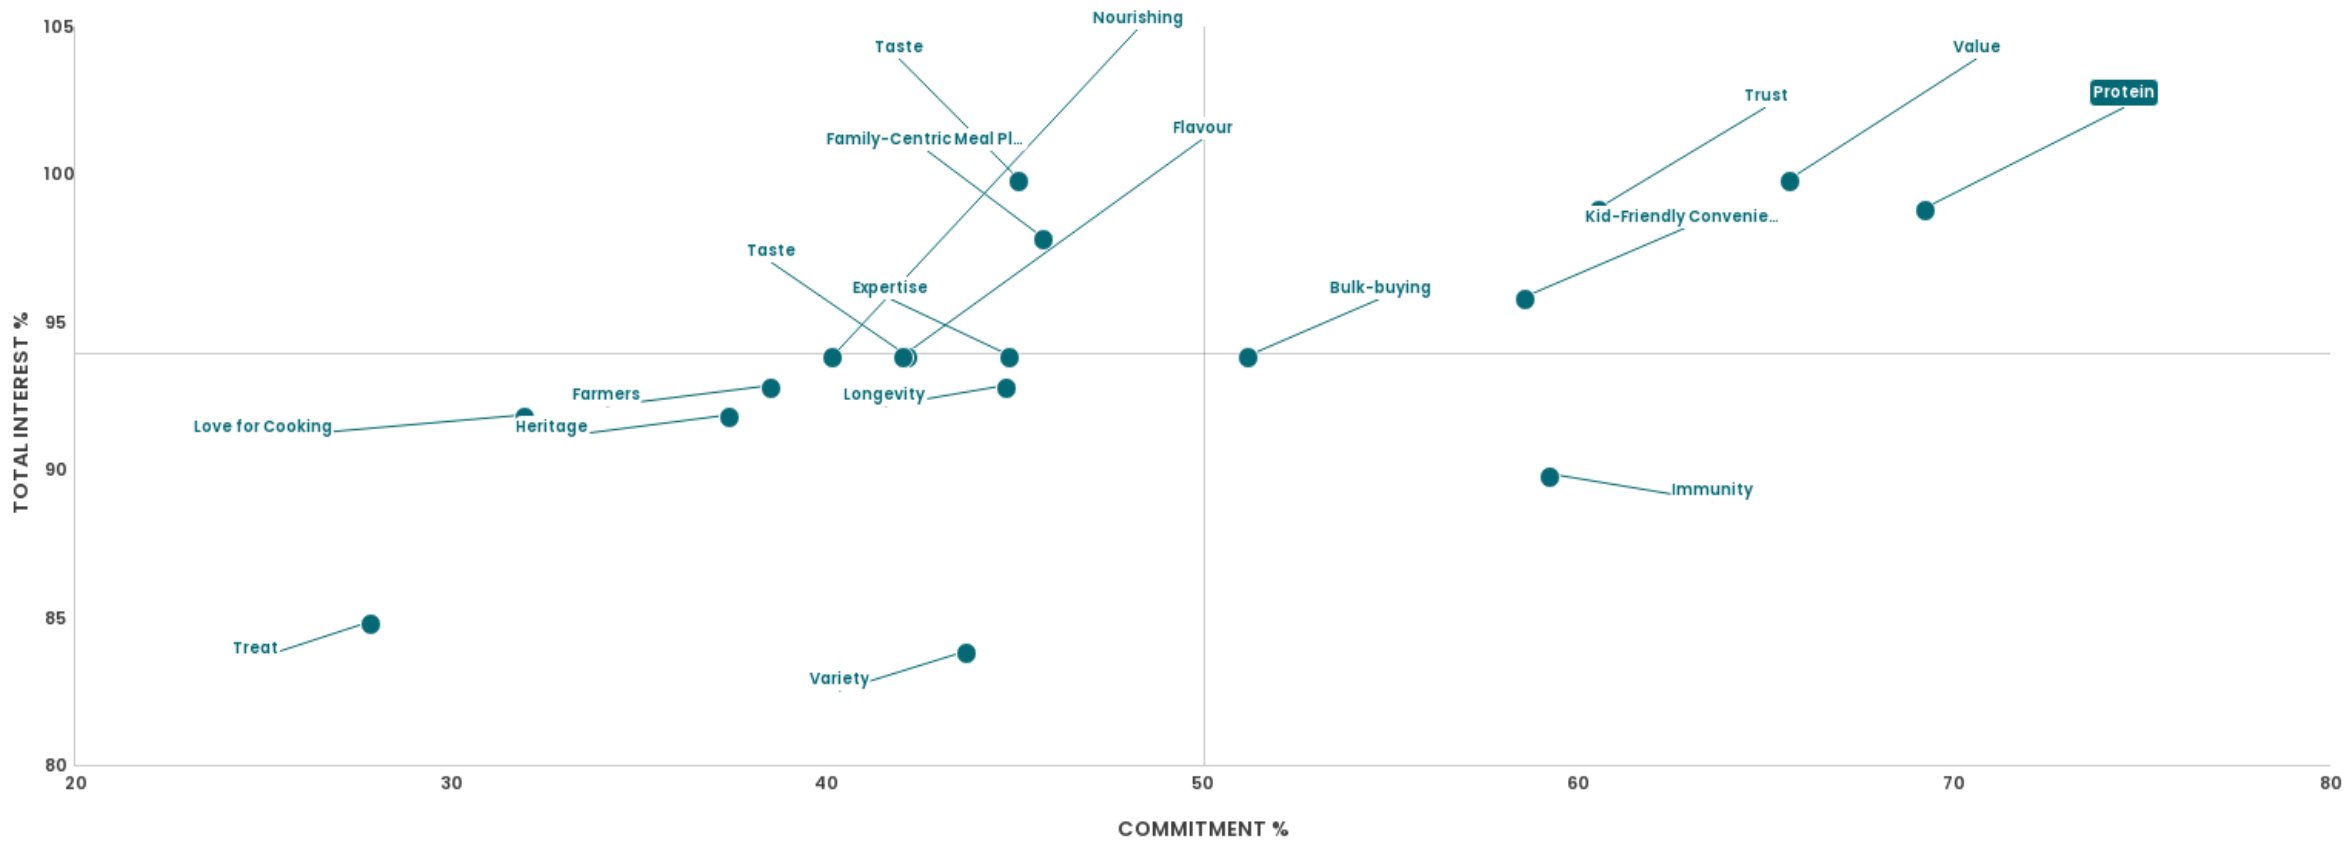
Kid-Friendly Convenience Wins

Strong Idea Score proves time-pressed parents reward easy, child-approved solutions.



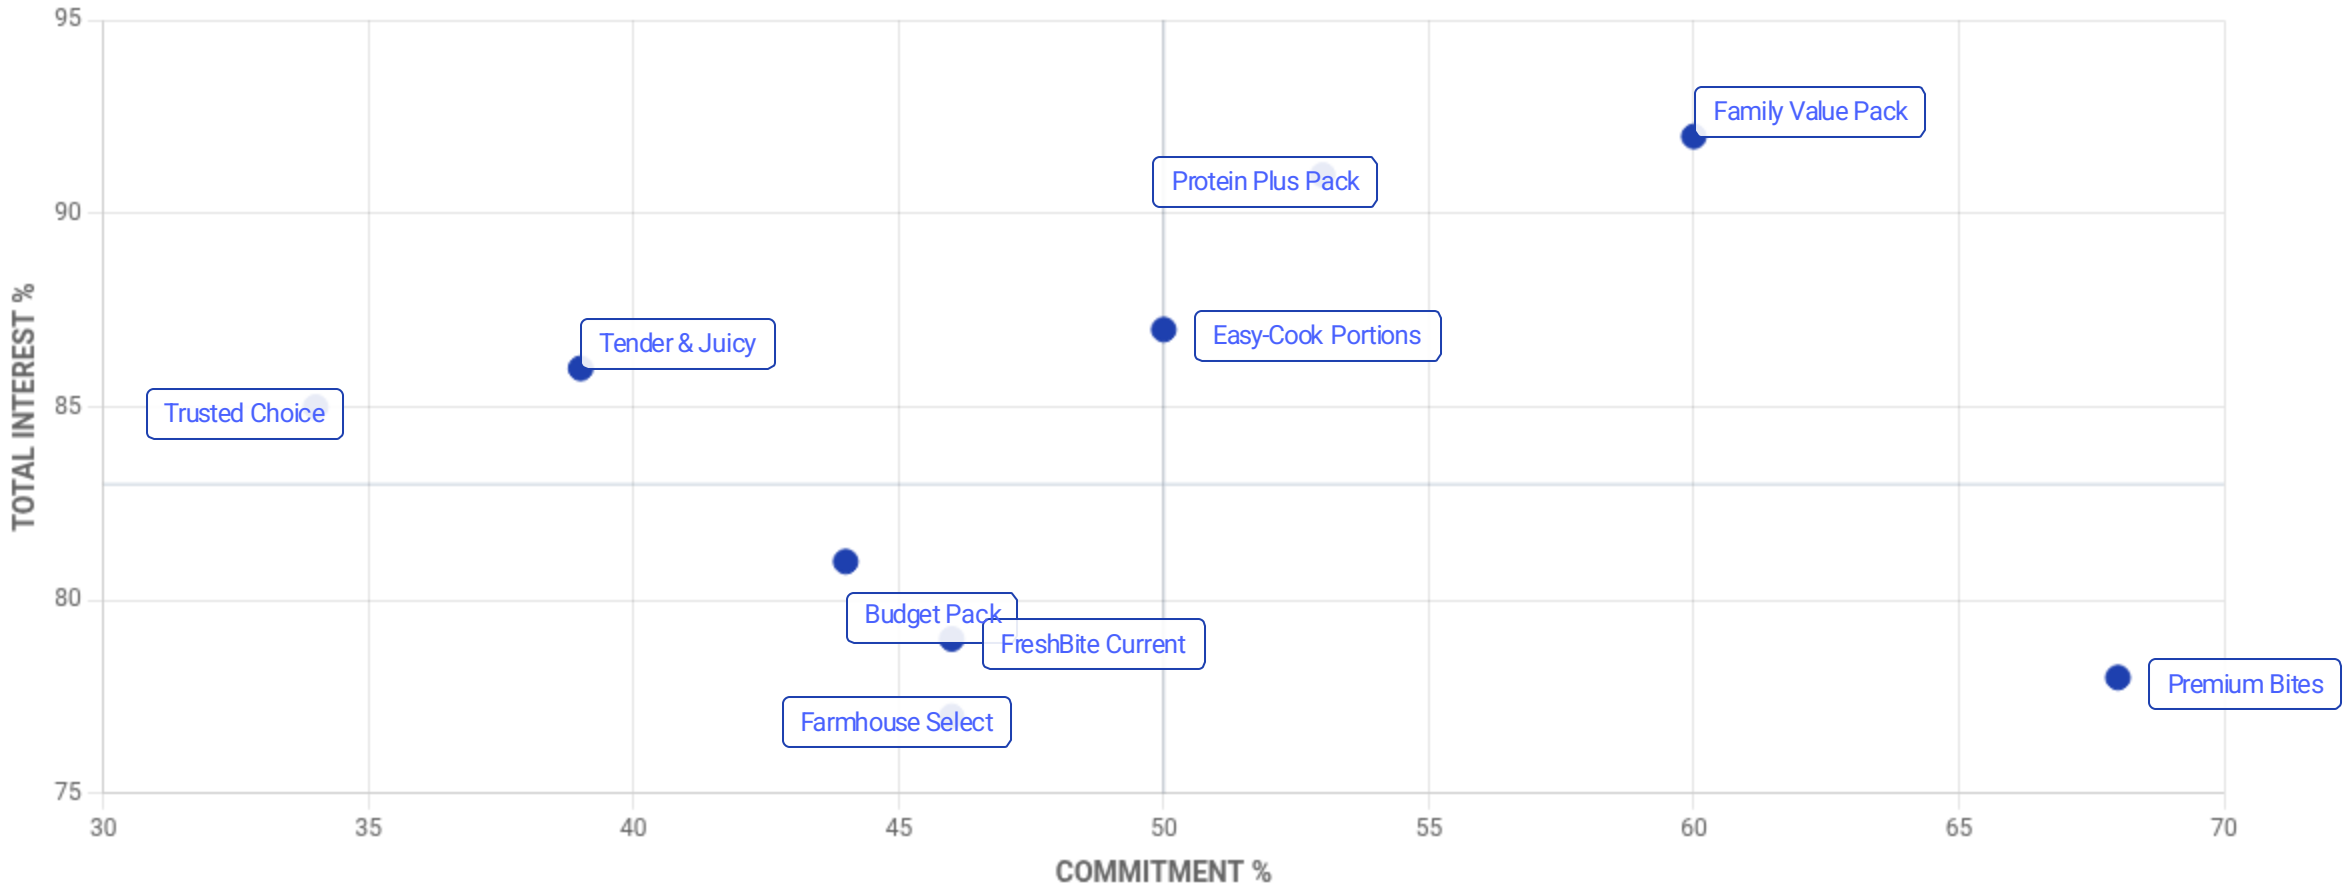
Protein Powers Preference

Near-perfect Interest and **category-leading Commitment** show shoppers actively choose protein claims.



Low Performers to Deprioritize

Low Performers Risk Investment — Tender & Juicy and Budget Pack lack both broad interest and decisive preference, suggesting deprioritization.



Protein Unites; Provenance and Value Split Genders

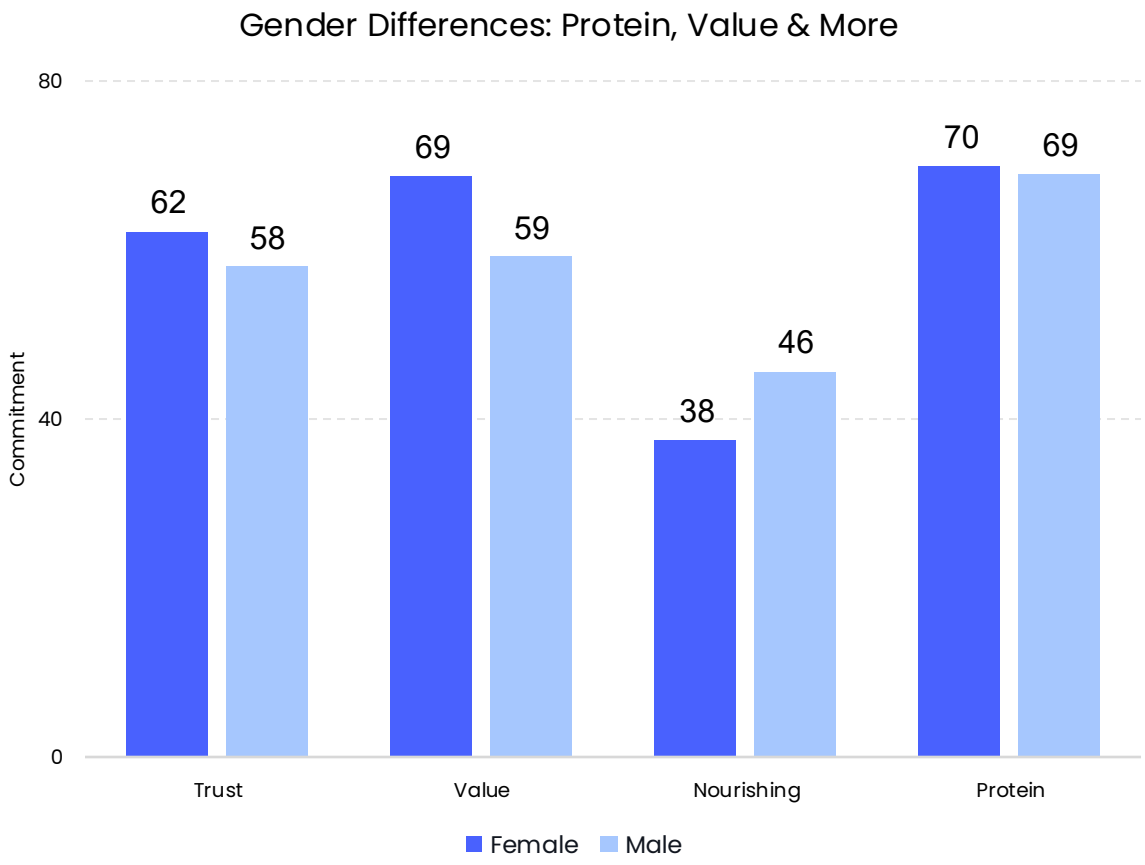
Protein reigns for both sexes (Idea 93–94), echoing the core winner.

Women over-index on wallet and kitchen cues: Value enjoys a 10-pt commitment edge, while Trust and Love-for-Cooking also skew female.

Men favour story and health: boosting Nourishing (+9) and Farmers (+7).

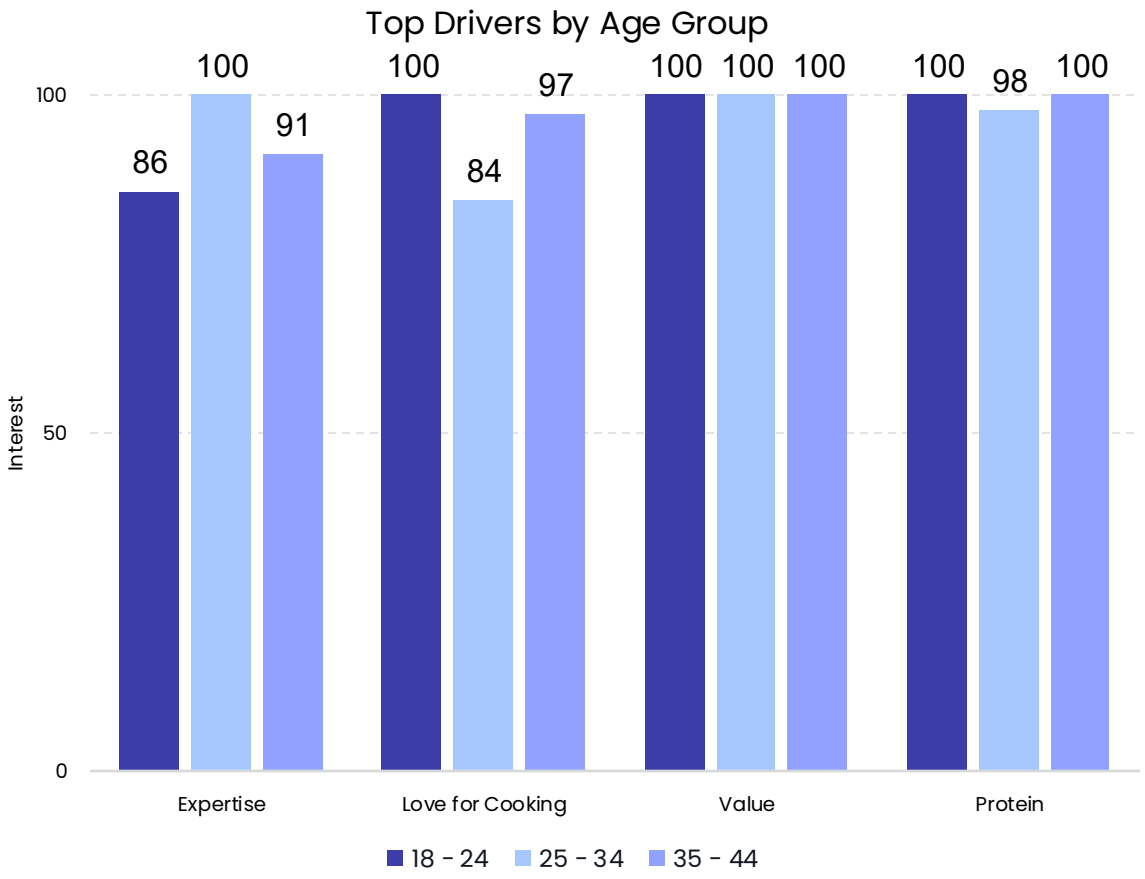
Kid-Friendly excels universally; Treat remains last.

Tailor value to her, provenance/health to him.



Value & Protein Win; Secondary Drivers Vary by Age

Value and high-protein claims dominate every generation, validating their universal pull. Pragmatic 25-34s over-index on Expertise and Bulk-buying, seeking smart upgrades. Passionate 18-24s engage with Love for Cooking yet ignore Treat cues. Established 35-44s lean on Trust plus Family-centric planning, reinforcing reassurance and practicality.



3. Idea Screen Results

We are going to show you some **Frozen Chicken Packaging Design.**

Some might already exist, others might be new to the market.

If you **like the concept** swipe right or click the '✓'.

If you **don't like the concept** swipe left or click the 'X'.

After you select two concepts as your preferred, you will be asked to tell us which one is the **MOST preferred.**

Idea Screen Summary:

Pack designs with "Family Value" and "Protein Plus" show the highest potential

Top-Line Insights

- Top 3 packs have Idea Scores >79, above average (76.5)
- All packs exceed Interest Score benchmark (>75%)
- Only 4 packs meet Commitment Score benchmark (>50%)
- Family Value Pack shows highest overall balanced performance

Benchmark Thresholds

80+	85+	50+
Idea Score	Interest Score	Commitment Score

Average Performance

77%	83%	49%
Average Idea Score	Avg Total Interest	Avg Commitment

Key Insights & Recommendations

Interest-Commitment Gap

Address the significant gap between Interest and Commitment scores. Only 4 out of 10 packs meet the Commitment benchmark despite high Interest scores.

Market Positioning

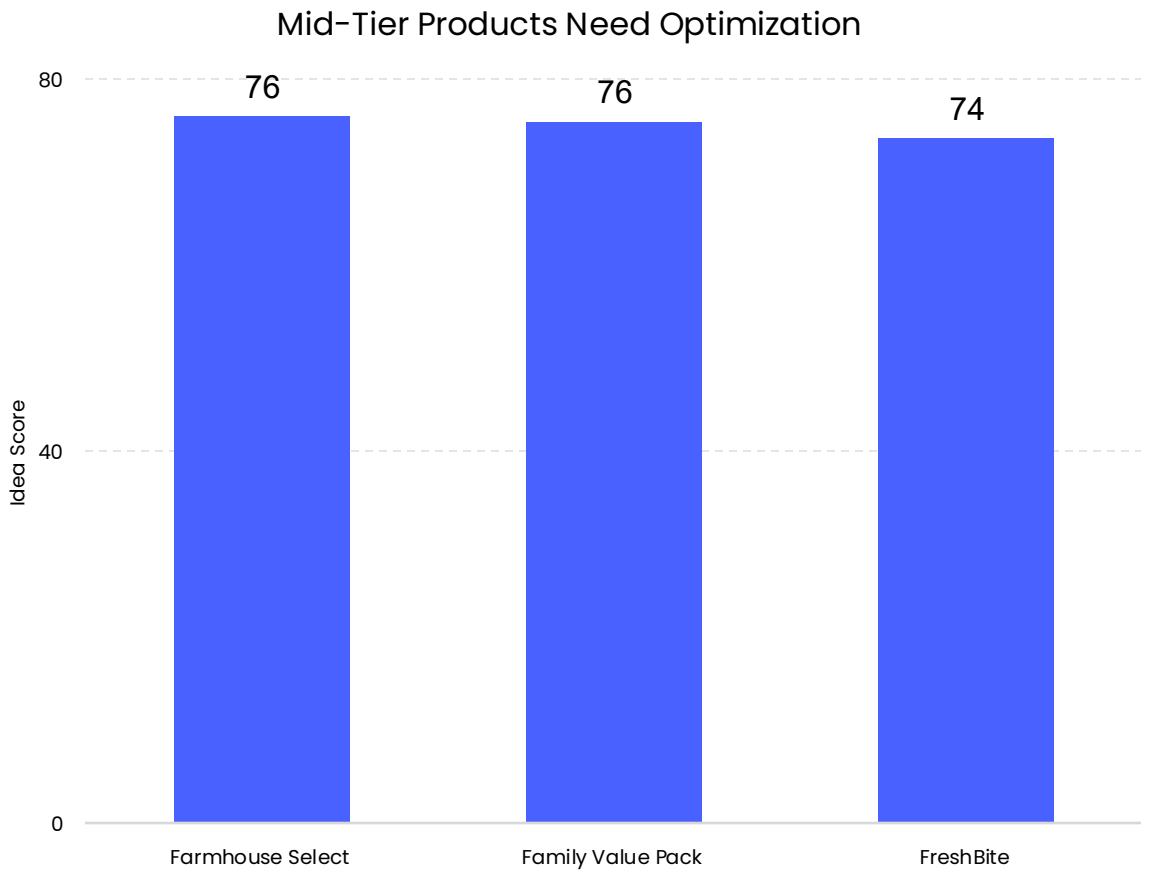
Consider prioritising Family Value Pack and Protein Plus Pack with their balanced performance across all metrics. Focus on improving commitment scores for Easy-Cook Portions, which show strong idea scores.

Top Performers

Pack	Idea	Interest	Commitment
Family Value Pack	**86%**	92%	66%
Protein Plus Pack	**82%**	91%	54%
Easy-Cook Portions	80%	87%	50%
Tender & Juicy	79%	90%	45%
Premium Bites	76%	83%	46%
Farmhouse Select	76%	78%	68%
Dinner Quick	75%	85%	37%
Budget Pack	74%	81%	44%
FreshBite Current	72%	79%	46%
Market Leader	71%	77%	46%

Mid-Tier Needs Optimization

Mid-Pack Needs Polish — **Farmhouse Select** and **Family Value Pack** sit mid-table, needing tweaks to lift Commitment and overall ranking.



Data Source: Section 7 (Idea Screen) - Idea Screen

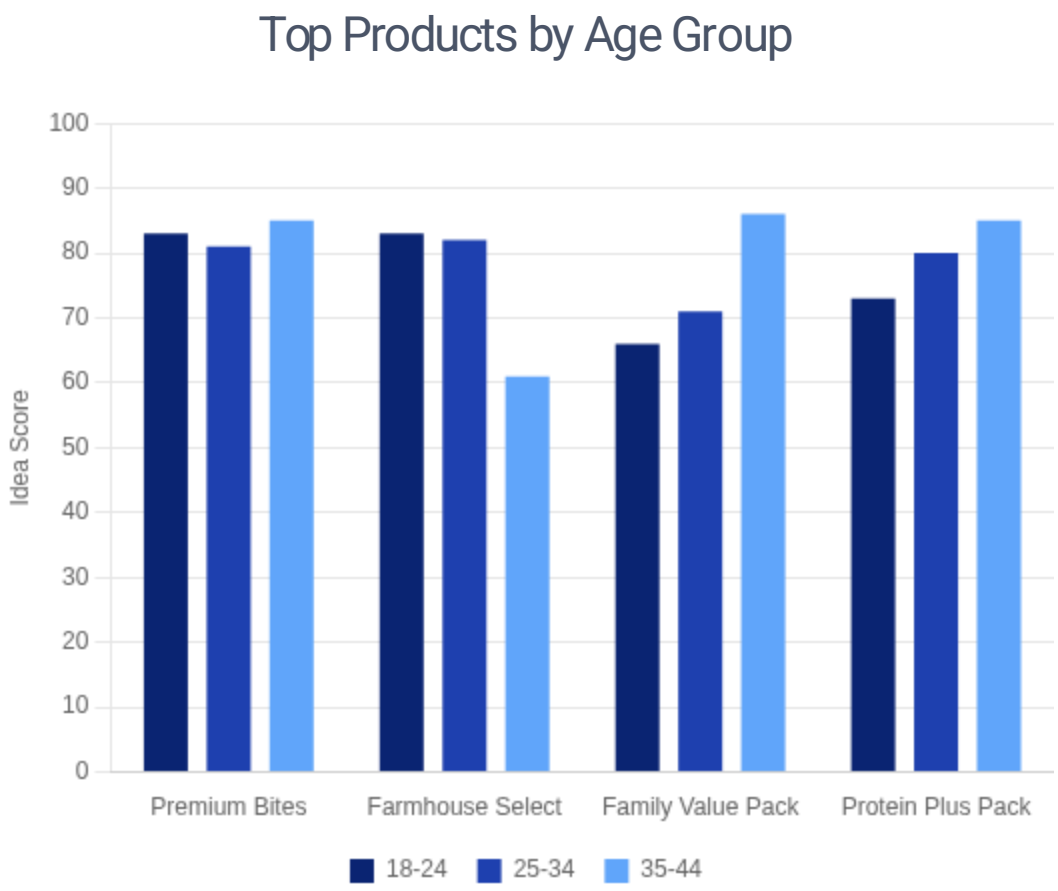
Winning Ideas Vary Sharply Across Age Cohorts

Premium Bites is the only universal performer, ranking top-3 in every age band.

Farmhouse Select ties Premium Bites for #1 with Gen Z/Millennials but drops to 7th with 35-44s.

The **Family Value Pack** and **Protein Plus Pack** rise to the podium among 35-44s yet remain mid-pack with younger shoppers.

FreshBite Current only competes among 25-34s.



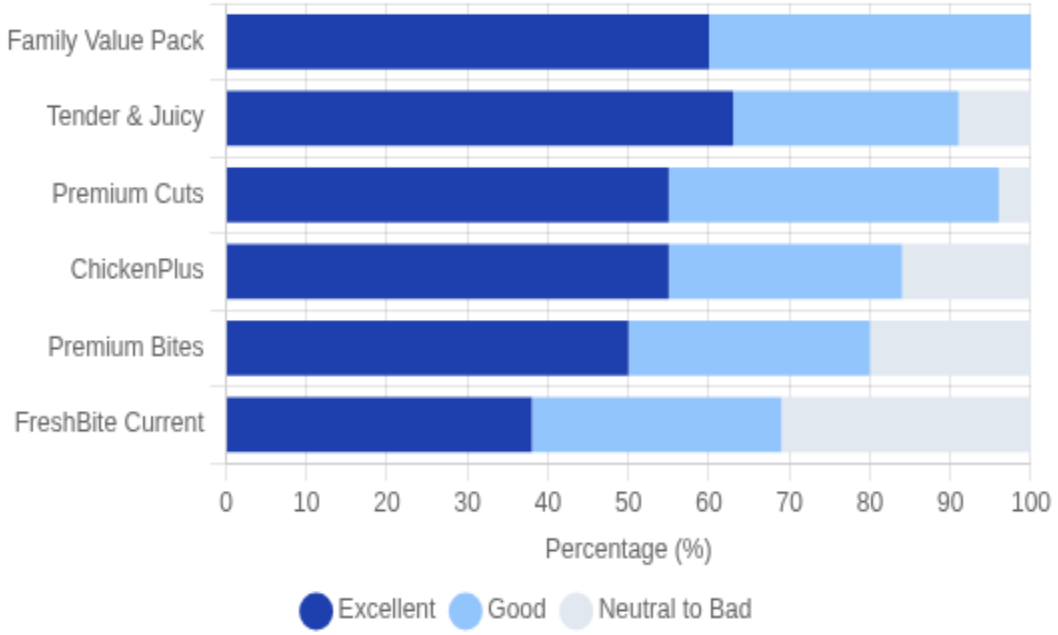
Net Promoter Score Analysis:

Family Value Pack and Protein Plus Pack deliver exceptional design appeal with industry-leading ratings

Key Design Insights

- Family Value Pack delivers the best overall scale average (1.40), with 100% positive ratings
- Protein Plus Pack leads with the highest "Excellent" ratings (67%)
- All new designs outperform existing products (FreshBite Current, Premium Bites, ChickenPlus)
- Easy-Cook Portions, Family Value Pack, and Protein Plus Pack received zero neutral or negative ratings

Design Rating Distribution



Design Appeal Rankings

Design	Excellent	Good	Scale Avg	Rank
Family Value Pack	60%	40%	1.40	1
Easy-Cook Portions	57%	43%	1.43	2
Tender & Juicy	63%	28%	1.47	3
Protein Plus Pack	67%	23%	1.47	4
Premium Cuts	55%	41%	1.52	5
Budget Pack	55%	28%	1.66	6
ChickenPlus	55%	29%	1.71	7
Dinner Quick	43%	43%	1.77	8
Premium Bites	50%	30%	1.80	9
FreshBite Current	38%	31%	2.14	10

Modified NPS Calculation

Based on treating "Excellent" as Promoters, "Good" as Passives, and "Neither to Bad" as Detractors

Top Performer (Family Value Pack):

+60

60% - 0% = +60

Current (FreshBite Current):

+21

38% - 17% = +21

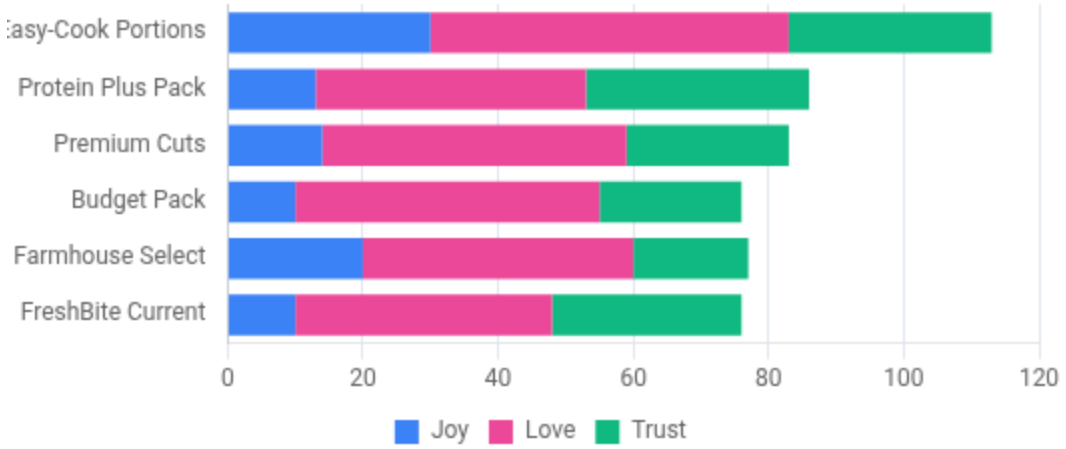
Emotional Appeal Analysis:

Family Value Pack and Easy-Cook Portions evoke the strongest emotional connections with consumers

Key Emotional Insights

- Family Value Pack generates the strongest overall emotional response, leading in love (57%)
- Easy-Cook Portions creates the most joyful reactions (30%), significantly above average (15%)
- Protein Plus Pack establishes the strongest trust connection (33%), crucial for brand loyalty
- All new designs outperform FreshBite Current across emotional metrics.

Emotional Response Distribution



Emotional Appeal Distribution

Design	Joy	Love	Trust	Total
Easy-Cook Portions	**30%**	53%	30%	**113%**
Family Value Pack	10%	**57%**	23%	**90%**
Protein Plus Pack	13%	40%	**33%**	**86%**
Tender & Juicy	13%	50%	20%	**83%**
Trusted Choice	19%	47%	9%	**75%**
Premium Cuts	14%	45%	24%	**83%**
Budget Pack	10%	45%	21%	**76%**
Premium Bites	13%	45%	29%	**87%**
Farmhouse Select	20%	40%	17%	**77%**
FreshBite Current	10%	38%	28%	**76%**

Emotional Appeal Analysis

Top performers by individual emotional metric:

Joy Leader: Easy-Cook Portions 30%

Love Leader: Family Value Pack 57%

Trust Leader: Protein Plus Pack 33%

4. Open-ended Feedback

FreshBite Designs: Open-Ended Feedback Summary

LIKES: What Catches The Eye

Clear Product Visibility — 17%

Packaging clearly communicates what's inside, helping consumers make informed purchase decisions. Images that demonstrate the final product create confidence.

> *"I like seeing real pieces – it helps me decide quickly."*

> *"You know at a glance if this is what you want."*

Font/Typography — 11%

Bold, clear typography with high contrast creates easy readability and a premium brand impression. Concise, scannable text helps in quick decision making.

> *"Big bold writing stands out!"*

> *"Blue and white combo is super clear."*

Appealing Cooked Chicken Images — 36%

Fresh, juicy serving suggestions drive appetite appeal. Images that show the prepared meal help consumers visualize end results.

> *"The grilled chicken looks delicious, makes me want it for dinner."*

> *"Love the actual meal photo – it's honest and yummy."*

DISLIKES: Areas For Improvement

Logo/Branding Placement — 10%

Brand elements occasionally compete with or obscure product imagery. Some logos are too small or poorly positioned for immediate brand recognition.

> *"Move the FreshBite logo to the center – it blends in."*

> *"The brand should pop more for new buyers."*

Handle/Functionality — 8%

Practical handling features are lacking on some packages. Consumers want easier carrying options and improved usability for frozen product handling.

> *"Handles would make it easier to grab."*

> *"Give a spot for fingers, bags get slippery in the freezer."*

Visual Balance — 7%

Some designs appear cluttered or visually imbalanced. Key information can get lost in busy layouts.

> *"Too many elements competing for attention."*

> *"Simplify the front panel to focus on what matters."*

FreshBite Designs: Open-Ended Feedback Summary

LIKES: What Catches The Eye

Local Sourcing & Branding — 25%

Emphasis on local farms and transparency resonates strongly with consumers seeking authentic quality.

"I love knowing exactly where my chicken comes from – builds trust."

"The farm imagery shows they care about quality sourcing."

Design & Visual Appeal — 19%

Clean, modern design elements create premium perception and help products stand out in the freezer case.

"The blue and gold looks high-end compared to others."

"Sleek design makes it feel like a premium product worth paying for."

DISLIKES: Areas For Improvement

Font Size/Readability — 15%

Nutrition information and cooking instructions need better legibility at typical viewing distance.

"Cooking time is hard to read – make it larger please."

"Had to squint to read protein content, important info should be bigger."

Background/Design Elements — 11%

Some color combinations reduce contrast and impact the premium perception of the product.

"The light blue background makes the text harder to read."

"Too many design elements competing for attention."

Strategic Considerations

Design Optimization

- Prioritise appealing cooked chicken images (36% like) while ensuring raw product visibility
- Adjust FreshBite branding for better hierarchy and visibility (10% dislike the current placement)
- Increase font size for key nutritional information (15% noted readability issues)

Differentiation

- Family Value Pack has the highest visual appeal - use as the primary design template
- Review the colour palette to address the 11% who disliked certain elements
- Enhance premium perception by improving colour contrast and typography

Functional Improvements

- Consider expanded size range options (based on portion size feedback)
- Test handle options for larger pack sizes (8% noted handling issues)
- Ensure brand elements don't compete with product imagery

5. Strategic Recommendations

Executive Summary & Recommendations

Key Consumer Needs Insights

- Quality perception is strongest in Family Value Pack (86%) and Protein Plus Pack (82%)
- High-performing concepts strongly deliver on protein (96%), value (94%), and trust (92%)
- Emotion-driven designs (Family Value Pack, Easy-Cook Portions) show strongest emotional connections
- Clarity is exceptional in Family Value Pack and Protein Plus Pack (both 95%)

New Premium Concepts
